

Priority™

Priority's slim, sleek profile incorporates a compression-molded wood back that follows and supports the ergonomic contours of the spine. High-back and mid-back models can be upholstered in leather, fabric or in combination (as shown).

The knee-tilt mechanism features a user-friendly side tension adjustment for convenience and comfort. Priority is well suited for use in private offices, meeting and conference rooms.

The arm design wraps around the back profile to accent the series slim style and is available in chrome, black or tungsten finishes.

Knee-tilt mechanism features a convenient, side tension adjustment and an independent multi-position tilt-lock.

Injection molded glass filled nylon base. Polished aluminium die cast base is shown above.

A complementary side and guest chair is available with a steel cantilevered base in chrome, black or tungsten finishes.

Priority™

8490 High Back Knee-tilter

8490 Side view

8491 Medium Back Knee-tilter

Above seating shown in Momentum Index, Checklist.
